535 Amina's Residency, Janakinagar, Solsumba, Umbergaon (E), 396165

Highly motivated, self-taught developer seeking a career in developing enterprise Single Page Applications.

As a developer, my primary focus is to adapt to best coding practices, write clean and readable code and understand how the complex moving parts come together to produce robust software solutions.

Work Experience

- Tradexa Technologies Private Limited , Pune
(Angular developer | Present)
 - Working in a product based startup developing an ecommerce app for distributors.
 - Architecting the entire front end for the system comprising of admin application with 25+ feature modules and a modern web store front end with state management solutions for minimizing the availability issues and improving the overall user experience.
- Soil Agritech Private Limited , Bangalore
(Lead Front end developer | Remote)
 - Developed the admin portal in Angular 7 along with an android app in Ionic 4.
 - Also developed apis in nodejs to integrate the otp sign in feature.
- Cognizant Technology Solutions India, Chennai
(Programmer Analyst | 6 Months)
 - Trained in Advanced Java , SQL
 - Build a Flight Ticketing Management System Project for assessment

Internships

- 1Rivet, Valsad
(FrontEnd Developer | Angular | 6 Months)
 - Understanding what Single Page Applications are and their pros over traditional client side solutions
 - Created applications which implemented strategies such as Change Detection ,Lazy Loading, Single Point Error Handling Interceptors , Model View Presenter (Design Pattern) ,etc which optimised apps to perform faster.
 - Used RxJS to develop features such as a typeahead , reactive form error handling , data manipulation , auto refresh ,etc
 - Created an Angular FrontEnd Production ready product which handled employee operations such as the resignation process , Integrated the same with a .NET backend and SQL Database.

IT Skills

- **Front End** : JavaScript (ES6), TypeScript, Bootstrap , HTML5, CSS3
- **Design** : Figma Sketch
- **Frameworks & Libraries**: Angular , NgRx , RxJS
- **VCS** : Git , GitFlow Branching Model
- **Other Skills** : Core Java, Competitive Programming, Blogging

Interpersonal Skills

Active Listener | Open to Feedback | Collaborative

Projects

- Restaurant Website
A learning project built using bootstrap to make the site responsive and to learn about HTML5 introductions of new elements like nav, section.
- Resume Builder
An angular application made using the stepper wizard provided by the angular cdk. The app uses a reactive form to accept user input and also provides a preview area so that user can edit and update accordingly.

Academic Credentials

- BE Electronics and Telecommunications 2013-2017
First Class with Distinction
Sinhgad Academy Of Engineering, Pune
- HSC Computer Science 2011-2013
First Class with Distinction
Pirojsha Godrej Junior College, Bordi
